Legacy Browser Support (integrated) for Windows

1. Download components

< Next: 2. Set policies >

Chrome browser version 74 and later.

For administrators who manage Chrome browser on Windows for a business or school.

To start, download the appropriate Chrome browser for enterprise bundle (64 or 32-bit).

Download: [Bundle 64 bit](#) | [Bundle 32 bit](#) | [What's in the bundle?](#)

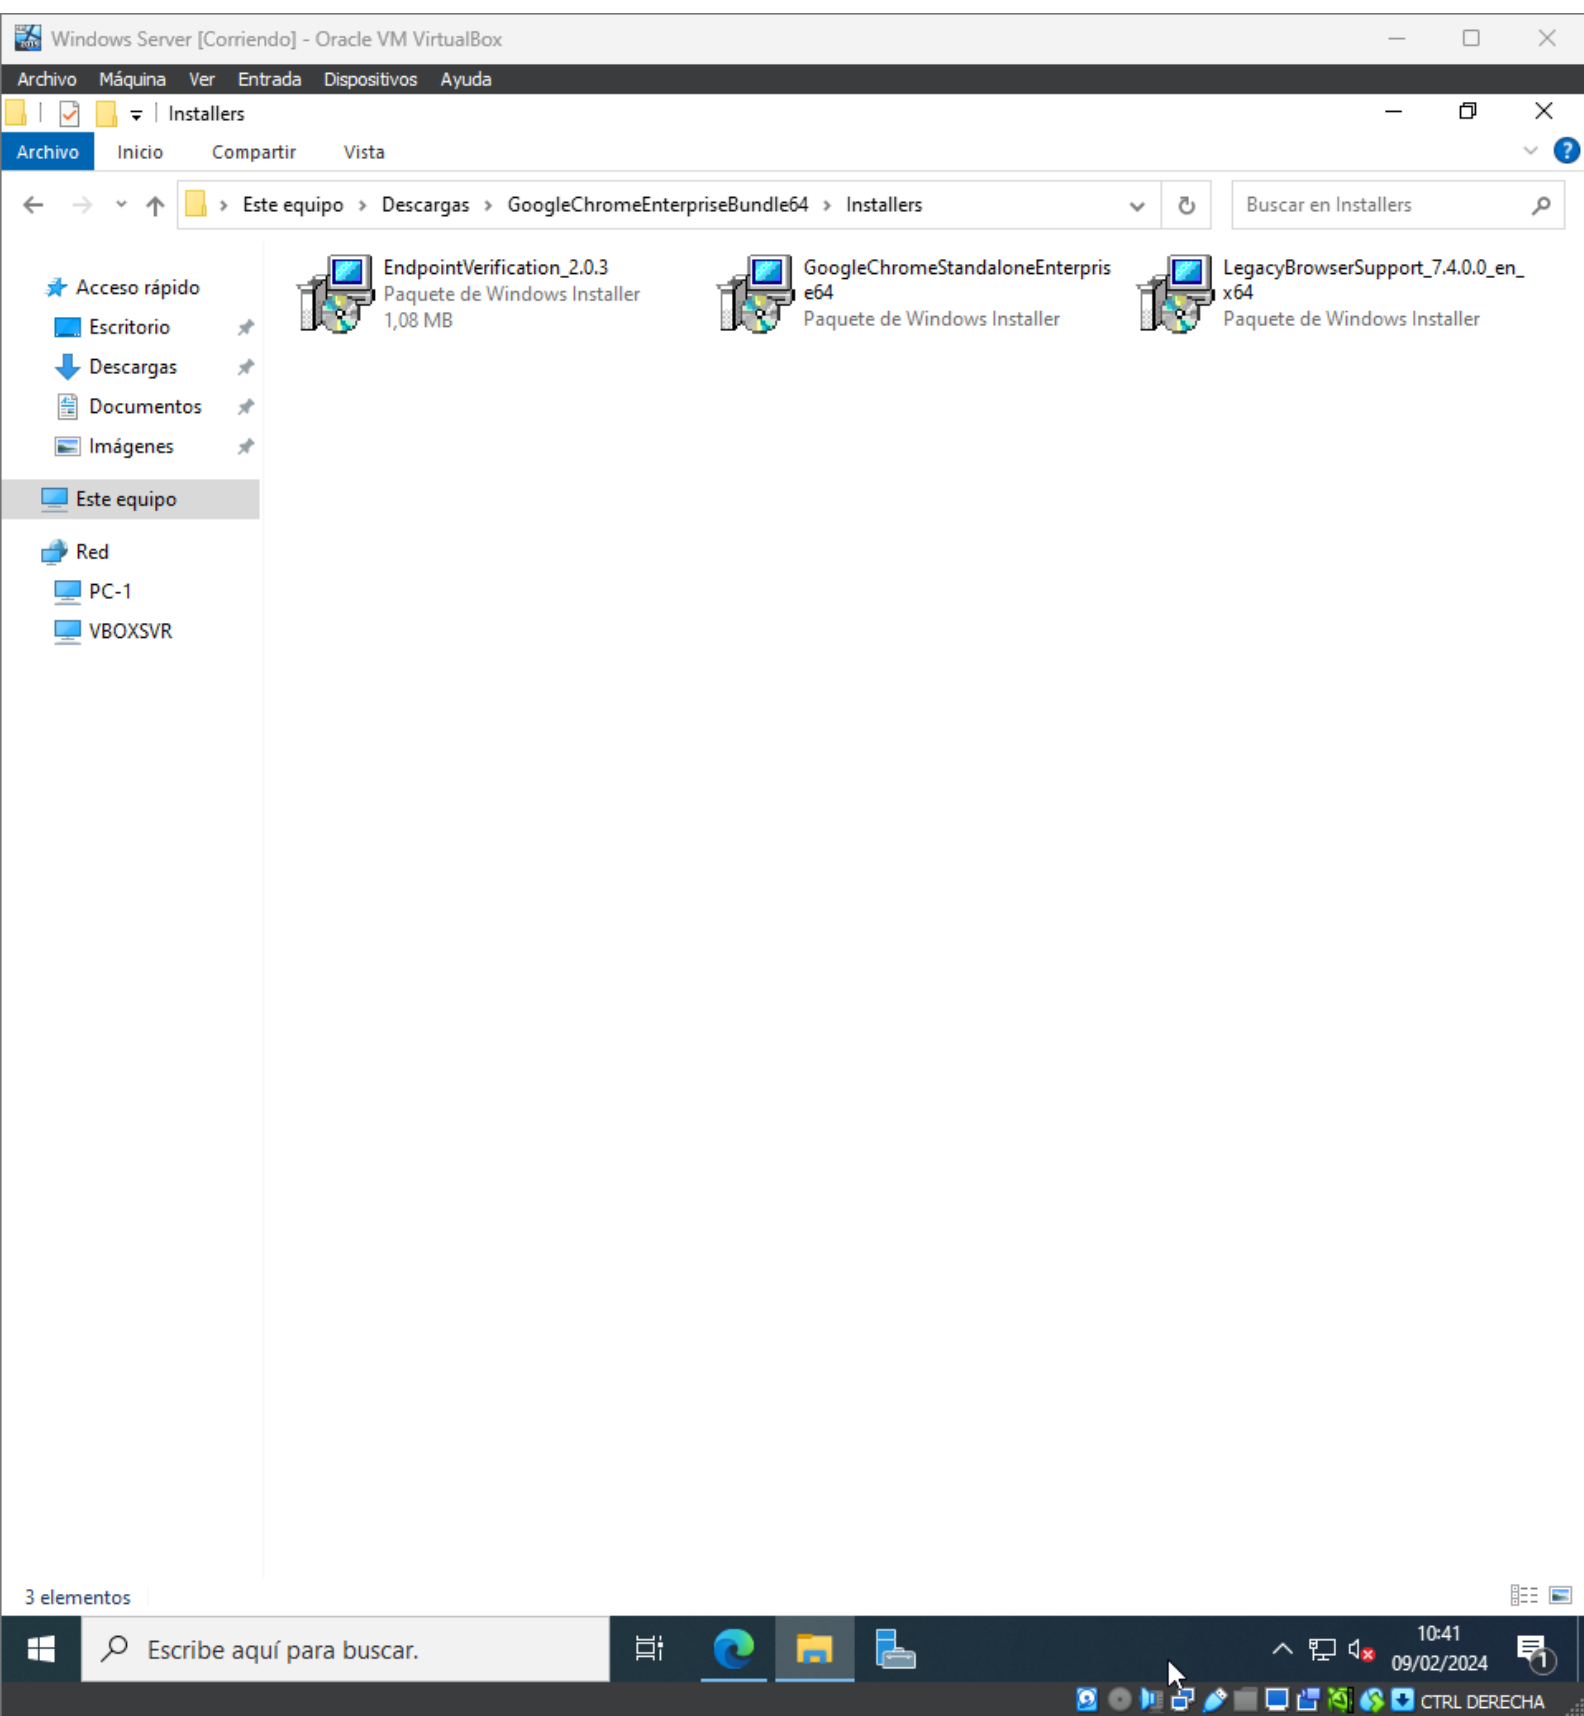

The essential files for integrated Legacy Browser Support (LBS):

- **Chrome MSI (.msi)**—Chrome Enterprise MSI installation package (32 or 64-bit)
- **Legacy Browser Support MSI (.msi)**—LBS MSI installation package (32 or 64-bit). LBS can only be installed at the system level and it doesn't support non-elevated installation. LBS works with Internet Explorer (IE) and Edge in IE mode. The LBS MSI includes an IE add-on that switches IE to Chrome browser and a native host that helps the Legacy Browser Support for IE Mode in Edge extension switch to Chrome browser.
